

S4 CONSULTING · ERP ADVISORY & IMPLEMENTATION

Deliver More Value. Pay Less.

Oracle NetSuite, Acumatica & S4 eSuite – combining global ERP platforms with deep local solutions to help businesses operate efficiently at a lower cost.

01 | ABOUT S4 CONSULTING

Cloud ERP Advisors Who Think Differently

S4 Consulting is an ERP advisory and implementation firm focused on Oracle NetSuite and Acumatica – two of the world's leading Cloud ERP platforms. Beyond core ERP deployment, S4 develops S4 eSuite, an extension suite that digitizes business processes not fully covered by core ERP, and S4 Integration Platform to connect ERP with other operational systems.

Instead of offering a one-size-fits-all ERP, S4 builds a flexible solution ecosystem that adapts to each business's unique operational needs – rather than forcing the business to change to fit the software.

"S4 doesn't operate like an outside consultant. They work with us as if they are part of our project team."

Ms. Bui Thi Hong Nhung
Deputy Finance Director - SSI Securities

02 | SERVICES & SOLUTIONS

The Right Platform, **Cost-Optimized**

S4 delivers services across three layers: core ERP platform, S4 eSuite extension suite, and system integration – helping businesses implement exactly what they need without over-investing.

WORLD-CLASS ERP PLATFORMS

Oracle NetSuite

Advisory, implementation and post-go-live support for NetSuite – the world's leading Cloud ERP for multi-entity financial management.

Retail

Startup

FinTech

S4 ESUITE – EXTENSION SUITE TO REDUCE ERP LICENSE COSTS

Procurement	Digitize the entire purchase cycle – from requisition, RFQ, PO to invoice and payment.
Budgeting	Budget control by cost center and project – alert or block transactions exceeding limits.
Expense Management	Digitize Travel Request, Advance and Expense Claim – auto-fetch E-Invoices.
Point of Sale	Integrated POS that syncs directly with ERP – no manual reconciliation.

INTEGRATION & LOCALIZATION SERVICES

S4 Integration Platform

Connect ERP with POS, MES, Misa AMIS, e-invoicing, and e-commerce platforms using our No-Code/Low-Code integration layer.

Vietnam Localization

E-invoicing and accounting localization compliant with VAS / Circular 200 standards for international ERP systems.

03 | WHY S4 CONSULTING

04 Reasons Businesses Choose S4

A successful ERP project is not just about configuring software correctly – it's about how we approach business processes and ensure long-term sustainability post-go-live.

01 Industry-Deep Solutions

ERP configured the way your business actually runs – Construction, F&B, Manufacturing, Distribution, Retail – instead of forcing you to change processes to fit the software.

02 Optimize License Costs

Acumatica's Unlimited Users model, S4 eSuite's Unlimited User License, and our Two-Tier ERP approach for group-affiliated companies help you scale users and operations without inflating license fees.

03 System Integration Experts

Connect ERP with POS, banking, e-invoicing, and other operational systems via a No-Code/Low-Code platform – reducing dependency on a single technical resource and enabling self-sustained operations.

04 Fast & Saving Methodology, AI-Powered

AI is applied across the entire project lifecycle – from requirements analysis, configuration, documentation to testing – to shorten timelines and reduce project costs while maintaining quality.

04 | REAL RESULTS

Real businesses. Real ERP transformation.

CASE STUDY · MANUFACTURING

LifeWear Technologies Vietnam Go-Live Oracle NetSuite

Photo: LifeWear Website

Starting October 1, 2025, LifeWear Technologies Vietnam officially went live on Oracle NetSuite, establishing a real-time data management foundation, complying with VAS standards, and strengthening operational control for manufacturing serving the U.S. market.
