CAPA · Corrective and preventive actions

Key capabilities

- Checklists by work type, referenced to QCVN 18:2021/BXD
- CAPA tracked through to verification
- Permits to work for 8 work types
- Dashboards, inspection reports and CAPA log

VN Site Safety for Acumatica Construction Edition

- Inspections on Acumatica Mobile App with photos
- Stop-work for critical findings
- Subcontractor access by permission
- Vietnamese - English bilingual, REST API

Value by role

Site engineers and safety officers inspect on a phone with photo evidence. Site management tracks open and overdue corrective actions. General contractors rate subcontractors on compliance data, and safety records stay traceable by project, date or subcontractor.

Who it is for

General contractors and civil or industrial builders on Acumatica Construction Edition; owners, project management boards and supervision consultants; companies with hazardous work such as hot work, work at height, confined spaces, electrical work or lifting; FDI companies that need bilingual safety processes.

What sets **VN Site Safety** apart

Safety runs on the same platform as projects, subcontractors and daily field reports in Acumatica Construction Edition.

Referenced to the national safety code

Site inspection checklists follow the reference structure of the national technical regulation on safety in construction.

✓ Checklists by work type

Subcontractor participation

Subcontractors take part within their access rights: request permits and resolve their own corrective actions, while the main contractor tracks safety status across all parties on the project.

✓ Supports safety meetings and improvement

Bilingual and connected to Acumatica

Screens, mobile app and reports in Vietnamese and English. Linked to Project, Project Task, Vendor, Employee, Project Issue and Daily Field Report; REST API for integration.

✓ Suited to FDI contractors

S4 Vietnam Localization Suite for Acumatica

Choose one package or combine them to fit your operating model

VN Financial Localization

Vietnamese books and financial statements under Circular 99/2025/TT-BTC.

VN Payroll

Payroll, social insurance, PIT and labour cost by project.
